Peak Appliance Service is a small, locally owned and operated business specializing in the repair, service, and installation of household and commercial appliances. We have been in this business for over four years. We are dedicated to providing the VERY HIGHEST level of customer service to our neighbors in the greater Golden and Applewood areas. We do not service furnaces, air conditioners, water heaters, etc. Appliance service is our only game, and we do it faster, better, and for less money than ANY of our competitors...large or small. Service calls are performed by appointment only. We do not have a storefront but have an office and a well-stocked warehouse in the basement of our home. A reduction in price of 10 to 20% is usually extended to members of the ABA depending on the nature of the work performed.
